### DETAILED ACTION

1. Preliminary Amendment filed on 5/24/04 has been received. Information Disclosure Statement filed on 2/19/04 has been received.

### ***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Jakobi et al (U. S. Patent no. 6,481,330) in view of Vermoesen et al (U. S. Patent no. 6,719,477).

Jakobi discloses a spacer for a booster with a top, bottom, and side walls formed by a parallel walls, Flange central channel with a plurality of ribs extending radially therefrom that seal against the boot at point 21, circular bearing surfaces 17, ventilation path 7 formed by an axial, peripheral and radial slots

Jakobi et al does not disclose the tabs in the bearing surfaces.

Vermoesen discloses a spacer for a booster with a top, bottom, and side walls 42, Flange 46 with a plurality of ribs extending radially therefrom, circular bearing surfaces 32 with tabs 34

Art Unit: 3683

It would have been obvious to one of ordinary skill in the art at the time the invention was made to have the tabs in the circular bearing surfaces as taught by Vermoesen in the spacer of Jakobi et al in order to ease assembly and help retain the booster.

4. Claims 9 and 10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
